United Irish Healthcare

Connection Focused Care

Personal Connections. Professional, Affordable Care.

uih.ie

United Irish Healthcare helps ageing adults and their families in cities, towns and parishes all over Ireland.

Here's what clients have said

"Our [87 Year Old] Dad's carer did an incredible job connecting with him emotionally, offering the most compassionate care we could ask for." — *K.Mahon*

"The rapport she built with my mother is beautiful to witness; she treats her with such familiarity and warmth that she regards her as a friends more than a carer." — *H.Murphy*

Our connection based care services cover

Independent living support so seniors can remain living at home,close to their loved ones.

Overnight, day or round-the-clockcare to ensure your loved one is looked after whenever needed.

High-dependency client care to enable seniors to stay at home, in their community and among family members for as long as possible.

Alzheimer's and dementia care to help your loved one remain among familiar people.

Hospital recovery and reablement to help your loved one readjust to life at home.

We're enabling ageing adults to live independently with affordable homecare solutions, that families can trust.

We provide connection-focused homecare services, that help ageing adults remain at home.

These four values are at the heart of everything we do.

1. Competent Service Delivery

- Connection focused care - carer compatibility with clients and their families matter.

- Highly skilled health care partners and clerical staff.

- Professional training, care management structure and support

2. Flexible

- We deliver care with full consideration of your preferences.

- Care management plan developed on an individual basis.

- Increase or decrease service use as is needed.

Enabling affordable independent living.

3. Innovators in Homecare

- Implementing technology for proactive health management and monitoring

- Engaged frontline team in the use of technology solutions for care.

- Pioneer innovative care practices to elevate care effectiveness.
